Pagrindinės savybės

- ✓ Dye ink for high-quality labels on glossy media: Superior durability, vibrant colours and rich black tones on glossy media.
- ✓ Easy to set up and use: The CW-D3800e is easy to set up and use, even without expert label knowledge.
- ✓ Easy maintenance: The print head automatically detects missing dots and adjusts the printing quality to compensate.
- ✓ Expanded versatility: Native middleware support for most popular software, as well as SDKs for iOS, Android and web applications.
- ✓ Integration options: Fits seamlessly into existing systems.

Aprašymas

Easy to use, stunning results

This high-quality label printer series has a compact footprint, making it ideal for environments where space is at a premium. The CW-D3800e meets the needs of small batch customers across many sectors, including cottage industries, retail, pharmacies and health retail.

Dye ink for high-quality labels on glossy media

The new dye ink can cover specific requirements, including superior abrasion and rubbing resistance on specific glossy media. Labels remain vibrant and intact, even under harsh conditions. Dye inks also let you achieve stunning results with a much wider colour range.

Easy to set up and use

The series has been designed to be extremely user friendly, even without expert label knowledge. All key operations can be carried out from the front, saving operation space.

Easy maintenance

The print head automatically detects missing dots and adjusts the printing quality to compensate. There are also a number of technical tools available to help with printer management, configuration and maintenance, including: remote configuration, maintenance and monitoring.

Expanded versatility

The CW-D3800e offers native middleware support for Seagull/BarTender, Loftware Cloud, and Teklynx/Codesoft, as well as SDKs for iOS, Android and web applications. This simplifies the process of creating and printing labels.

Integration options

All models in the range are integration-friendly. SAP direct support, ESC/Label, Linux and Mac drivers. ZPLII compatible.
