3D DNR

Removes abnormal pixelation to provide clearer video and eliminate distortion.

More compression. More savings. Same quality.

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality.

Flexible Management and Storage

Take full control over your security via four management methods: the web UI, NVR UI, VIGI app, and VIGI Security Manger. Local storage is available for each method, as well as onboard storage with an SD card slot (up to 256 GB).
