Gamintojas: ASROCK

EAN: 4710483942044

Prekės kodas: 76317

121.99€

Modern and futuristic, with the attractive specifications and perfect balance, the Race Sport (RS) Edition is the evolution of the most popular PRO series motherboard.

Its unique path takes aim at mainstream DIYers that drives an undeniable performance and trustable computing experience without a pricey upgrade.

RaceSport edition, your all-rounder motherboard that fulfills every task and light-loading gaming - with style and speed!

Optimized VRM Design

Dr.MOS is the integrated power stage solution which is optimized for synchronous buck-set down voltage applications! Compared to traditional discrete MOSFETs, it intelligently delivers higher current for each phase, thus providing improved thermal result and superior performance.

Featuring sturdy components and completely smooth power delivery to the CPU, offering enhanced performance for gamers.

The 6 Layer PCB provides stable signal traces and power shapes delivering lower temperature and higher energy efficiency for memory overclocking! Thus, it's able to support the latest memory modules with most extreme memory performance!

DDR5 XMP & EXPO Support

Derived from the “built for stable and reliable” designing concept, ASRock does not compromise on

any details. This motherboard is built with low-loss materials, enthusiasts are able to enjoy the boost of DDR5 memory overclocking performance by enabling the pre-tested profiles. Make sure the memory modules are Intel® XMP/AMD EXPO™ capable and overclocking can be made so affordable, satisfying and absolutely no sweat at all.

DDR5 Memory with Protection Circuit

Due to the unique electrical architecture of DDR5 DIMM, there's a high risk of damaging the memory module if AC power isn't disconnected properly during removal or installation. To prevent this, ASRock has implemented a trouble free protection circuit on every DDR5 motherboard, lowers the risk of damaging your memory module.

PCIe 5.0 + Surface-Mount Tech

Compares to conventional DIP style PCIe slot, the SMT type PCIe slot improves signal flow and maximize stability under high speed, a key breakthrough to fully support the lightning speed of the latest PCIe 5.0 standard.

The latest PCI Express 5.0 is capable to perform a breathtaking bandwidth of 128GBps, ready to unleash the full potential of future high end graphic cards.

Reinforced Steel Slot

[PCIe 5.0 Version]

The reinforced steel slot is capable of supporting PCI Express 5.0 standard. The various benefits include:

- ✓ Extra anchor points
- ✓ Stronger latch
- ✓ Ensure signal stability
- ✓ Make sure heavy graphics cards to be well-installed.

Nahimic Audio

Whether you are using headphones, a headset, external or internal speakers, via USB, Wi-Fi, analog output or even HDMI, Nahimic Audio offers you the most engaging listening experience, vibrant and rich with details.

The Powerful algorithms to ensure the best noise-free conversation, giving a constant vocal level no

matter the distance from your mic. The Nahimic audio engine dynamically clear the sound and remove interference noise and lower the voice variation. Result is a better comprehension and less fatigue.

- Static Noise Suppression
- Echo Cancellation
- Lateral Sound Cancellation
- Voice Stabilizer

- Sound Tracker

The Sound Tracker is a visual indicator that points out the directions from which predominant sounds are coming. Each sound is properly positioned in 360° on a radar for a full immersion during the game.

- Works on any devices!

Enjoy the vibrant and high-quality Surround Sound on all your favorite audio devices: Jack, USB, Bluetooth, HDMI, S/PDIF. Nahimic is compatible with all of your favorite audio tools and ensures the best sound with any of them. Nahimic measure and improve to optimize our technology and offer you the best experience.

POLYCHROME RGB

In addition to the built-in RGB illumination, it also features onboard RGB headers and an addressable RGB header that allow motherboard to be connected to compatible LED devices such as strip, CPU fans, coolers, chassis and so on. Users may also synchronize RGB LED devices across the Polychrome RGB Sync-certified accessories to create their own unique lighting effects.

High Speed M.2 Solution(PCIe Gen4 x4)

Supports PCI Express 4.0 M.2 SSDs, it is capable of perform twice the speed compared to previous 3rd generation, giving a lightning fast data transferring experience.

Dragon 2.5 Gb/s LAN

The intelligent 2.5Gb/s LAN platform is built for maximum networking performance for the demanding requirements of home networking, content creators, online gamers and high-quality streaming media. Boost networking performance up to 2.5X the bandwidth compared to the

standard gigabit Ethernet, you'll enjoy the faster and uncompromised connectivity experience for gaming, file transfers and backups.

Dual USB 3.2 Gen2 (Type-A + Type-C)

This motherboard has a pair of onboard Type-A and Type-C USB 3.2 Gen2 ports built on the rear i/o for supporting next generation USB 3.2 Gen2 devices and to deliver up to 10 Gbps data transfer rates.

Front USB 3.2 Gen2 Type-C

Front USB 3.2 Gen2 Type-C header delivers up to 10 Gbps data transfer rate and next generation reversible USB design to the front panel of computer case.

Built in eDP Signal Connector

Supports ASRock 13.3" Side Panel kit

An eDP signal connector is built with ASRock selected motherboards and supports two functions simultaneously - power and transmission of digital display signal. The connector reserves the room for upgrading with ASRock's exclusive 13.3" Side Panel Kit.. The ideal 13.3" Side Panel size will be perfectly matched standard form factor chassis and users can easily build a LCD display inside the PC, adding a sub-screen for monitoring PC status, or watching videos, doing streaming or working personalized tasks. This whole new concept of customization enables new possibilities for personalizing designs - doubles productivity or entertainment.

EZ Setting

Optical drive or driver DVD is no longer needed! ASRock motherboard already has its Ethernet driver prepacked in BIOS ROM, once finish installing the operation system, simply follow the instructions and allow ADI to download and install all necessary drivers automatically!

Step1: Install Auto Driver Installer

Step2: ADI will automatically download and install all necessary drivers.

Step3: Done!

ASRock strives offer only the cutting edge technology with the most user-friendly design. The pre-installed IO Shield design makes motherboard to be well-installed in the chassis precisely for preventing any interferences and speed up the set-up process.

- Supports 13th Gen & 12th Gen Intel® Core™ Processors (LGA1700)
- 10+1+1 Power Phase, Dr.MOS for VCore+GT
- Supports DDR5 7200MHz (OC)
- 1 PCIe 5.0 x16, 1 PCIe 4.0 x16, 1 PCIe 3.0 x16
- 1 PCIe 3.0 x1, 1 M.2 Key E for WiFi
- Graphics Output Options: HDMI, DisplayPort, eDP
- Realtek ALC897 7.1 CH HD Audio Codec, Nahimic Audio
- 4 SATA3, 2 Hyper M.2 (PCIe Gen4x4)
- 1 M.2 (PCIe Gen4x2)
- 2 USB 3.2 Gen2 Type-C (1 Rear, 1 Front)
- 1 USB 3.2 Gen2 Type-A (Rear)
- 6 USB 3.2 Gen1 (4 Rear, 2 Front)
- 4 USB 2.0 (2 Rear, 2 Front)
- Dragon 2.5G LAN
- Supports ASRock Auto Driver Installer

Summary: Asrock B760 PRO RS. Processor manufacturer: Intel, Processor socket: LGA 1700, Compatible processor series: Intel® Core™ i3, Intel® Core™ i5, Intel® Core™ i7, Intel® Core™ i9. Supported memory types: DDR5-SDRAM, Maximum internal memory: 128 GB, Memory slots type: DIMM. Supported storage drive interfaces: M.2, PCI Express 4.0, SATA III, Supported storage drive types: SSD, RAID levels: 0, 1, 5, 10. Graphics card family: Intel, On-board graphics card model: Intel Iris Xe Graphics. Ethernet interface type: 2.5 Gigabit Ethernet, LAN controller: Realtek RTL8125-BG | Vendor Homepage: <https://www.asrock.com/mb/Intel/B760%20Pro%20RS/#Specification> | Audio chip: Realtek ALC897 | Audio output channels: 7.1 | Component for: PC | Motherboard chipset: Intel B760 | Motherboard chipset family: Intel | Motherboard form factor: ATX | Power source type: ATX | Rack-Friendly board: Yes | Windows operating systems supported: Windows 10 x64/Windows 11 x64 | Compatible processor series: Intel® Core™ i3/Intel® Core™ i5/Intel® Core™ i7/Intel® Core™ i9 | Processor manufacturer: Intel | Processor socket: LGA 1700 | Supported processor sockets: LGA 1700 | ECC compatibility: Non-ECC | Maximum internal memory: 128 | Memory channels: Dual-channel | Memory slots type: DIMM | Number of memory slots: 4 | Supported memory clock speed (max): 7200 | Supported memory clock speeds: 3600/4000/4400/4800/5600/6000/7200 | Supported memory types: DDR5-SDRAM | Number of HDDs supported: 1 | RAID levels: 0/1/10/5 | RAID support: Yes | Supported storage drive interfaces: M.2,PCI Express 4.0,SATA III | Supported storage drive types: SSD | Discrete graphics support: Yes | Graphics card family: Intel | HDCP: Yes | Number of displays
