Aprašymas

NEEWER NW3300-G wheeled backpack with compartments for a DSLR

The NEEWER NW3300-G is a functional 2-in-1 backpack that combines the features of a standard camera backpack and a wheeled trolley case. With dimensions of 55 × 35 × 26 cm, it easily fits into most carry-on luggage compartments, making it a convenient solution for travel. The design ensures safe and organized storage of your gear while allowing for easy transport thanks to the retractable handle and smooth-rolling wheels.

Thoughtful organization and large capacity

The interior of the backpack offers ample space with 11 adjustable dividers that allow you to securely store a DSLR camera, lenses, flashes, and other accessories. Additional pockets—4 small and 4 mesh—make it easy to organize memory cards, batteries, cables, or filters. The front pocket fits a laptop up to 17", and a specialized strap allows for secure attachment of a tripod, enhancing functionality when working in the field.

Convenient transport and weather resistance

The backpack is equipped with soft, padded shoulder straps and handles for comfortable carrying. In situations requiring greater mobility, you can use the telescoping handle and wheels to ensure smooth movement. The waterproof nylon outer material protects your gear from moisture, and the included rain cover provides additional protection against heavy rain, dust, and dirt.

Included

- backpack
- rain cover
