Aprašymas

Neewer SRP18-2.4G 46 cm LED Ring Light

The Neewer SRP18-2.4G LED Ring Light is a versatile lighting solution designed for vlogging, live streaming, makeup, portrait photography, and creating content for social media. The model is equipped with 272 LEDs with a CRI of 95+, ensuring that the light is even, soft, and accurately renders natural skin tones. Color temperature adjustment in the range of 3200K-5600K and brightness adjustment from 10% to 100% allow you to easily adapt the lighting to the surrounding conditions and the nature of the recording. The large 48 cm diameter ring effectively reduces shadows on the face, and the adjustable tripod, with a height range of 78 to 190 cm, works well both when working at a desk and in a home studio.

Soft light for photos and videos

The Neewer SRP18-2.4G generates stable, flicker-free light that enhances skin tone and helps achieve a more professional look in photos and videos. The high CRI of 95+ ensures colors appear natural and more realistic, which is important for makeup application, product photography, or live streaming. The ability to adjust the color temperature allows you to quickly switch from warm light to a cooler, more studio-like effect. This makes the light ideal for both everyday recording and more demanding photo shoots.

Intuitive operation and remote control

The light is equipped with a touch control panel and an LCD screen displaying the current brightness and color temperature settings. This solution allows you to conveniently control the parameters without interrupting your work. The kit also includes a 2.4 GHz remote control for remote

operation of the light, including brightness and color temperature adjustment, as well as turning the device on and off. The remote supports multiple channels simultaneously, making it useful when using multiple lights in a single shooting setup.

Adjustable Tripod and Practical Accessories

The tripod is made of a lightweight yet durable aluminum alloy, ensuring adequate durability during daily use. Height adjustment from 78 cm to 190 cm allows you to conveniently adapt the lamp’s position to various working scenarios. The manufacturer has designed the tripod to provide greater stability when the legs are spread beyond 90 degrees, which helps secure the equipment even at maximum height. When folded, the tripod takes up very little space, making it easy to store or transport. The set also includes a swivel smartphone mount, a ball head, and a cold shoe adapter for mounting a camera or additional accessories.

A Complete Kit for Content Creators

The Neewer SRP18-2.4G is a complete kit for video content creators, live streamers, or those shooting product and portrait photos. The included phone mount allows for quick switching between portrait and landscape orientations, making it easy to prepare content for various social media platforms. The ball head, with 360° rotation and 90° tilt, allows you to comfortably frame the shot for both smartphones and DSLR cameras. The kit also includes a Bluetooth remote for taking photos and a carrying bag for the ring light, so you can easily take the entire set with you.

Included

- Neewer SRP18-2.4G LED ring light
- Lighting tripod
- Bluetooth remote control
- 2.4 GHz remote control
- Smartphone mount
- Hot shoe adapter
- Power adapter
- Power adapter with plug
- Carrying bag for the ring light

Manufacturer	Neewer
Model	SRP18-2.4G
Product type	LED ring light
Number of LEDs	272
CRI	95+
Power	42 W
Brightness	2150 lux (0.5 m), 880 lux (1 m)
Brightness adjustment	10-100%
Color temperature	3200K-5600K (±100K)
Input voltage	DC 12-15 V
Outer diameter of the ring light	48 cm
Inner diameter of the ring light	38 cm
Tripod material	aluminum alloy
Tripod height adjustment	78-190 cm

Folded height	75.5 cm
Color	black
