Aprašymas

NEEWER BASICS X12B 12" teleprompter

The NEEWER BASICS X12B is a functional teleprompter featuring a 12-inch screen with 75% light transmittance, allowing for comfortable reading of text from a distance of up to 3 meters. The aluminum housing ensures durability while remaining relatively lightweight (1664 g), making the device well-suited for both studio and mobile use.

Comfortable reading and precise positioning

Thanks to a specialized glass coating, the text displayed on the tablet is clearly reflected and easy to read without taking your eyes off the lens. The adjustable platform and lens hood allow you to adapt the teleprompter to various cameras and setups, keeping the lens in a central position. This solution works perfectly for recording online courses, presentations, or live broadcasts.

App and remote control

The X12B works with the NEEWER Teleprompter app and the RT113 remote control, which connects via Bluetooth. This allows for convenient text control—pausing, scrolling, changing the speed, or adjusting the font size without touching the device. The remote's silent buttons do not interfere with recordings, which is essential for maintaining high-quality audio.

Foldable design and wide compatibility

The X12B model can be easily folded flat, making it simple to store and transport in the included bag. The mount supports tablets with maximum dimensions of 25 × 22 cm, including popular iPad models (except the 12.9" iPad Pro). The adjustable lens hood allows the device to be adapted to various equipment setups, though it requires lenses with a focal length of at least 28 mm for optimal results.

Included

- Teleprompter x1
- RT113 Remote Control x1
- Cleaning Cloth x1
- Carrying Bag x1
- User Manual x1

Specifications

Manufacturer	Neewer
