Aprašymas

Fast, Faster, UASP!

The new chipset supports UASP standard and SATA III 6 Gbit/s HDDs, so that the real reached transfer is significantly faster than that of a normal USB 3.0 external case. The Easy Swap mechanism lets HDD changes happen fast – no screws, just open lid, pull out HDD, push in new HDD, close lid. Ready.

It's the mix

The IB-377U3 consists of a striking yet simple blend of highly polished and sandblasted plastic. Thus it is good looking but also very light and easy to handle.

Blue like...

... My LED. It indicates that the case is powered up and has access to the HDD. This way you can see at first glance whether you are connected to

your data or not.

No speed limit

The fast USB 3.0 port with UASP support allows data transfer rates of up to 5 Gbit/s and ensures that even large amounts of data can be transferred quickly and without problems. The enclosure supports SATA I/II/III up to 6 Gbit/s and can therefore fully use the USB 3.0 standard.
