Aprašymas

The Lanberg patch panel is designed for efficient organization of network connections. With 24 shielded and numbered ports, this panel ensures a tidy setup while enhancing signal integrity. Crafted from sturdy galvanized steel, this rack-mountable unit supports standard 19-inch racks, making it a practical choice for various installations. Included in the package are screws and a grounding cable for easy setup. The grounding point ensures safety and reliability in the network, while the included mounting kit makes installation straightforward, providing everything needed for a seamless connection environment.
