Pagrindinės savybės

- ✓ Compatible With IEEE 802.3af and 802.3at Compliant PDs
- ✓ IEEE 802.1p QoS
- ✓ Auto-MDI/MDIX in all ports
- ✓ Jumbo frame support up to 9 KB
- ✓ IEEE802.3x Flow Control

Aprašymas

Meeting the price and power demands of small businesses

The Zyxel GS1005HP is equipped with 5 gigabit Ethernet ports, 4 of which are PoE ports that can deliver up to 60W of total PoE budget. The GS1005HP can easily connect with PoE ready devices to your network with plug-and-play design while providing power-saving benefits without compromising performance. The GS1005HP fills a long-standing hole in the market for unmanaged PoE switches that feature the 802.3at standard, has a high power budget and are affordable for SOHOs and small businesses.

Smart PoE+ 802.3af/802.3at support

The GS1005HP supports the IEEE 802.3at standard, providing a maximum of 30 watts per port (with a max total power budget of 60 watts) to supply power to PoE network devices such as wireless APs, IP cameras, and VoIP phones.

Easy PoE Budget Management

The GS1005HP boasts a total power budget of 60W and features a handy LED indicator that shows orange when the 50W threshold is reached. If power usage exceeds the budget, the last device will automatically be dropped with no impact on the other devices that are powered through the switch.

Gigabit data transmission and smart features

Featuring Gigabit performance, it provides 10 times faster than Fast Ethernet. Delivers up to 2,000 Mbps of dedicated bandwidth per port. Get more advanced features like Jumbo Frame, flow control, and auto-negotiation. It's a great choice for SMBs who want to enjoy high-speed business network applications!

Fanless design

Extend your network without disrupting your quiet business environment. This switch features a fanless design that ensures noiseless operation and greater reliability over time with no moving parts that may fail.

Advanced Energy-Savings at Work

The GS1005HP's built-in IEEE 802.3az Energy Efficient Ethernet (EEE) function automatically detects network traffic and adjusts power consumption dynamically to reduce power usage during low link utilization periods.

Techninė specifikacija

Specifications	
Sandėlio grupė	Root/Electronics/Networks and communication/Switchers [+37][-357]
Management features	
Switch type	Unmanaged
Quality of Service (QoS) support	Yes
Ports & interfaces	
Basic switching RJ-45 Ethernet ports quantity	5
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Network	
Networking standards	IEEE 802.3, IEEE 802.3ab, IEEE 802.3az, IEEE 802.3u, IEEE 802.3x
10G support	No
Full duplex	Yes
Flow control support	Yes
Auto MDI/MDI-X	Yes
Data transmission	
MAC address table	2048 entries
Switching capacity	10 Gbit/s
Jumbo frames support	Yes
Jumbo frames	9126
