Aprašymas

DarkFlash F1 Computer Case + 6 Fans (White)

The DarkFlash F1 is an ATX case that stands out with its 270° panoramic design and two fully transparent tempered glass panels on the front and left sides. The visually open design showcases the components well, and the set includes 6 fans. The design also provides ample space for extensive setups—it supports graphics cards up to 415 mm in length, CPU coolers up to 180 mm in height, power supplies up to 200 mm in length, and up to 3 2.5" SSDs or 2 3.5" HDDs. The case is compatible with ITX, M-ATX, and ATX motherboards, including M-ATX and ATX models with rear-panel connectors.

270° panoramic view

The design, which lacks a vertical bar between the front and side panels, provides a wide, unobstructed view of the computer's interior. The use of tempered glass on the front and left sides showcases the graphics card, cooling system, and other components. This solution works particularly well in setups where the appearance of the components and lighting is just as important as their performance.

Multifunctional platform with ARGB lighting

The DarkFlash F1 is equipped with an additional display platform. It can serve as a customizable space for showcasing selected components, and the integrated ARGB strips provide additional interior lighting. This allows you to further accentuate the appearance of your entire setup.

Vertical or horizontal graphics card orientation

The dual-mode graphics card mounting design allows you to adjust its orientation to suit your setup. The GPU can be mounted either horizontally or vertically, giving you greater flexibility when planning the appearance and layout of your components. There are 7 expansion slots available, and the maximum graphics card length is 415 mm.

Efficient Cooling and Directed Airflow

The airflow channel design features a fan mount angled at 8°. Combined with reverse-blade fans, this solution directs cool air directly toward heat-generating areas, including the graphics card and motherboard. The case supports up to 10 fans, and the top can accommodate a water-cooling system with a radiator up to 360 mm, allowing you to expand the cooling system according to the requirements of your components.

Support for Back-Connect Motherboards and a Tighter Internal Layout

The case is compatible with ATX and M-ATX back-connect motherboards, where the relevant connectors are located on the back of the board. This reduces the number of cables visible from the front of the chassis and allows the components to be better showcased behind the panoramic glass panel. The DarkFlash F1 also supports standard ITX motherboards, so you can choose the motherboard form factor that best suits your planned setup.

High-Speed 10 Gbit/s USB-C Port

The I/O panel provides access to a USB Type-C port compliant with USB 3.2 Gen 2, supporting data transfer speeds of up to 10 Gbit/s. In addition, there are two USB 3.0 ports, an HD Audio jack, and power, reset, and LED control buttons. To take full advantage of the USB-C port, you must use a motherboard that supports the corresponding USB Type-C connection.

Robust Construction and Dust Filters

The DarkFlash F1 chassis is made of 0.8 mm thick SPCC steel, and the case's overall dimensions are 452 × 240 × 464 mm. Dust filters are installed at the top and bottom to help prevent dust from entering the computer's interior.

Included

- DarkFlash F1 computer case
- 6 fans
- User manual

Manufacturer	DarkFlash
Model	F1
Case Type	Midi Tower
Side Panel	Tempered glass
Motherboard Standard	ATX, M-ATX, ITX
Internal Drive Bays	2x 3.5" HDD / 3x 2.5" SSD
Expansion Card Slots	7
Max Power Supply Length	200 mm
Max Graphics Card Length	415 mm
Max CPU Cooler Height	180 mm
Max Number of Fans	10

Fan Mounting Options	Rear: 1x 120 mm fan or 1x 140 mm fan; Top: 3x 120 mm fans or 2x 140 mm fans; Side: 2x 120 mm fans; Bottom: 3x 120 mm fans; HDD cage: 1x 120 mm fan
Water cooling mounting options	Top: 240 mm or 360 mm water cooling
Number of installed fans	6
Fan type	INF34
Buttons and controls	Power, Reset, LED
Ports	2x USB 3.0, 1x USB-C, HD Audio
Material	0.8 mm SPCC
Color	white
Height	464 mm
Width	240 mm
Depth	452 mm
