## Aprašymas

The **Mercusys MR30G** is a high-performance **dual-band Wi-Fi gigabit router** designed to meet the demands of modern internet usage. Operating on both **2.4 GHz** and **5 GHz** frequencies, this router supports the **Wi-Fi 5 (802.11ac)** standard, delivering a maximum WLAN data transfer rate of **1167 Mbit/s**. With its **RJ-45 WAN connection**, the MR30G is versatile enough to accommodate various network requirements, making it an ideal choice for both home and office environments.

Equipped with **Gigabit Ethernet**, the Mercusys MR30G offers Ethernet LAN data rates of **10, 100, and 1000 Mbit/s**, utilizing **10/100/1000Base-T(X)** cabling technology to enhance overall network performance. The router's robust security features include **WPA-PSK** and **WPA2-PSK** encryption algorithms, along with an **SPI firewall** that supports IP/MAC address binding. This ensures that your network remains secure while providing reliable connectivity.

The **Mercusys MR30G** supports multiple network protocols such as **PPPoE**, **L2TP**, and **PPTP**, offering flexibility for various networking environments. Its sleek black, tabletop design allows it to blend seamlessly into any setting, providing a powerful yet discreet networking solution. With advanced features like **NAT functionality** that supports port forwarding, port triggering, UPnP, and DMZ, the MR30G stands out as a superior choice for users seeking both performance and security in their internet connectivity.

## Techninė specifikacija
