Aprašymas

Fast is a State of Mind

Gaming and work areas often overlap in modern living spaces: the Speeder One is designed with this versatility in mind. Aesthetically inspired by motor racing design, its ergonomic features help you maintain a healthy posture whether you’re racing against the clock at crunch time or seizing that in-game clutch moment.

Mesh fabric upholstery ensures breathability, while precisely tunable lumbar and seat depth ensure a perfect fit. 2D folding armrests support your arms in multiple positions, so you never feel strained whether you’re at your desk or gaming setup. The Speeder One supports your body to keep your hands and mind agile, so you can work fast...and play hard.

Need For Speed

The sleek, racing car-inspired design brings the dynamic energy of the racetrack to your home office or gaming setup. Supercar build influences the Speeder One’s architecture: the Y-frame creates a 3-point backrest support structure, tempering strength with stylishness.

Body Friendly

The backrest indents with a curve to accommodate the natural contours of the waist, enhancing support and comfort for the lower back. A waterfall seat slopes downward to reduce tension and friction on the back of the thighs: this feature relieves knee pressure and improves blood circulation to the lower limbs, promoting equal weight distribution across the seat pan due to its contoured construction.

Breathable Comfort

Mesh fabric provides a breathable seating experience, perfect for long hours of gaming or work.

Unrestricted Arm Movement

The armrests can be lifted up and out of the way for more setup flexibility, allowing you to move the chair closer to your desk. It also frees your arms for anything requiring unrestricted movement and full mobility: art, music, work or play, the Speeder One fully adapts to your needs.

Support System

2D folding armrests support various arm positions, while the headrest adjusts for personalized comfort.

A Perfect Fit

Precisely tunable, lumbar support, and seat depth allow you to adjust the chair to your exact preferences.

Adjustable Design

Premium quality piston lift lets you easily adjust the Speeder One’s height.

A knob discreetly located under the Speeder One enables you to fine tune the level of resistance and how much tilt you require.

Safety First

The Speeder One is TÜV certified, conforming to BIFMA safety and durability standards.

BEST IN CLASS: Class 4 Gas Lift Cylinder

The class gas lift cylinder is TÜV certified, guaranteeing safe, reliable and smooth height adjustment.

Noiseless Mobility

A sleeve on the caster’s spoke reduces frictional resistance as well as eliminating noise, allowing the Speeder One to glide across any surface as effortlessly as it’s quiet. At 75mm diameter, the plus-size wheels vastly enhance stability.

Techninė specifikacija

Features	
Product type	Universal gaming chair
Maximum user weight	120 kg
Backrest type	Upholstered backrest
Armrest	Yes
Theme	Racing
Gaming platforms supported	Universal
