Pagrindinės savybės

- ✓ USB versija: 3.2 Gen 1 (3.1 Gen 1) C tipo USB Kištukinis
- ✓ „DisplayPort“ išvestis
- ✓ Palaikomų ekranų skaičius: 2
- ✓ 3840 x 2160 pikseliai
- ✓ Juoda

**OUTSTANDING
GRAPHICS**

Aprašymas

The adapter is suitable for all laptops, smart phones and tablets equipped with a Thunderbolt 3 port or a USB-C port with support for video transmission (Display Port). This new connector has a number of advantages – it is small and symmetrical, making its connection much easier. Simply connect the adapter to a device with a compatible USB-C port and connect a monitor with a Display Port on the other end using the cable. The operating system will automatically install any drivers required.

Expand your workspace via the new USB-C or Thunderbolt 3 interface. This adapter supports transmission from 4K Ultra HD resolution of up to 3840×2160/60 Hz, with audio signal to boot.

Expand your desktop to two external Display Port monitors or connect projectors or television to your notebook, tablet or PC via new USB-C or Thunderbolt 3 connector. The adapter supports 2x 4K Ultra HD video with resolution up to 3840 x 2160 px and stereo sound.

The adapter is suitable for use with Chromebook Pixel 2015, Acer Switch Alpha 12, Dell XPS 13, HP EliteBook Folio G1 and other devices with the USB-C connector. The USB-C connector has many advantages, it is smaller, symmetrical and allows easy connection, because now you need not take care of the rotation of the connector. More information about the USB-C is available [here](#).

When connected to the Apple notebook, only one monitor is supported. No USB-C video adapter is able to support two monitors in Mac OS environment; only Thunderbolt 3 adapter is capable of dual monitor output in Mac OS systems.

The adapter is excellent choice for designers, graphic designers, gamers, and other users working with more than one screen simultaneously. Using the “Extend” and “Mirror” modes you can work for example with applications on two monitors (e.g., wide spreadsheets), or you can work on the first screen and search for information on the Internet on the second screen, you can compare several documents simultaneously without constant switching among the open windows, you can display panoramic images on two screens without the need to have another computer etc.

Using is very simple, just plug the adapter into the USB-C or Thunderbolt 3 port on your computer, connect it with a display device via Display Port cable and you can immediately start using. Driver installation is automatic from the system.

Techninė specifikacija

Veikimo charakteristikos

USB versija	3.2 Gen 1 (3.1 Gen 1)
DVI išvestis	Ne
HDMI išvestis	Ne
„DisplayPort“ išvestis	Taip
Palaikomų ekranų skaičius	2
USB jungtis	C tipo USB
USB jungties lytis	Kištukinis
Maksimali rezoliucija	3840 x 2160 pikseliai
Išvesties spalvos gylis	16/32 bitai
Veidrodinio ekrano režimas	Taip
Išskleisto rodymo režimas	Taip
Duomenų perdavimo sparta (maks.)	10 Gbit/s

Konstrukcija

Produkto spalva	Juoda
Sistemos reikalavimai	
Palaikomos „Windows“ operacinės sistemos	Taip
Palaikomos MAC operacinės sistemos	Taip
Palaikoma operacinė sistema „Linux“	Taip
Kitos palaikomos operacinės sistemos	Android
Svoris ir matmenys	
Plotis	70 mm
Ilgis	50 mm
Aukštis	15 mm
Svoris	53 g
USB kabelio ilgis	0,3 m
Pakuotės duomenys	
Pakuotės tipas	„Box“
Pakuotės plotis	180 mm
Pakuotės gylis	130 mm
Pakuotės aukštis	25 mm
Paketo svoris	131 g
Pakuotės turinys	
Instrukcija	Taip
Logistikos duomenys	
Darniosios sistemos (DS) kodas	84733020
Matmenys ir svoris	
Matmenys (I × P × A)	21,00cm × 13,00cm × 3,00cm
Svoris	0,13kg
