Aprašymas

Lived sustainability with a clear conscience - the products of the SCALE family are manufactured from recycled PET and are kind to the environment. Consistent recycling helps to conserve resources and is the foundation of innovative solutions. Within the main material of the Backpack SCALE, 13 PET bottles are given a new life - without compromising on quality, functionality or design. The backpack offers excellent protection for your devices and is comfortable and easy to carry. Designed for daily use. Equipped with practical functions that make your life easier.

There's double protection for your 15-17.3" device in the lockable notebook compartment: with surrounding High-Density Foam (HDF) padding and reliable fastening thanks to the elastic securing strap. The roomy main compartment offers plenty of space for papers or anything else you need to carry. Thanks to a compartment for tablets measuring up to 10.5" and a strap to transport your headphones with care, your mobile companions are perfectly safe. The spacious front pocket helps you keep things organized with its functional division into compartments for a smartphone, power bank, pens and other items. Water bottles and umbrellas can be stored in the exterior pockets, saving space inside the backpack. The ergonomic back padding, comfortable shoulder strap and trolley fastening trap on the back side ensure comfort as you transport the bag to work, university or for more extensive travel.
