Aprašymas

The Eco Backpack MOTION offers ideal protection for laptops between 13 and 15.6" thanks to its high-density foam (HDF) padding. The slip pocket provides reliable protection for tablets up to 12.9". The spacious main section is divided so that documents and accessories can be stored separately. There is space for your water bottle or umbrella in the mesh pockets inside of the bag. The front pocket has practical smaller compartments so you can organize smaller items like your smartphone, pens or chargers. The additional zipper on the side of the backpack provides quick access to the main compartment. You can therefore ensure that everything you need is always on hand. The backpack's ergonomic padding makes it comfortable to wear on your back and the padded shoulder straps can also be adjusted for further comfort. The bag is made of water-repellent material to protect the contents even on rainy days. The Eco Backpack MOTION is therefore perfect for you if you are always on the go and want to support the recycling of PET bottles with an eco-friendly bag.
