Aprašymas

The Lanberg SC01-4504-08B is a versatile rack-mountable chassis designed to accommodate various motherboard form factors including ATX, microATX, and Mini-ATX. It features a robust SPCC steel construction, ensuring durability and compliance with EMC and RoHS standards. This chassis includes four front accessible bays and six internal bays, providing ample space for storage expansion. Enhanced functionality is achieved through the built-in USB 2.0 hub and audio line-out connectors located on the front panel, making it user-friendly. Cooling is effectively managed with a 120 mm fan located at the rear, top, and front, allowing the system to operate within a wide range of environmental conditions, from 0°C to 50°C with humidity levels between 5% to 95%. With unique features such as a front panel lock and a removable dust filter, this chassis ensures secure access and promotes efficient maintenance. Choose the Lanberg SC01-4504-08B for a practical solution for your server needs.
