Aprašymas

Green Cell PowerPlay Pro is a portable power bank designed to keep laptops, tablets, and phones charged during travel or long days away from outlets. It combines a high-capacity 20 800 mAh lithium polymer battery with up to 65 watt power delivery to support fast charging for larger devices while remaining compact enough for everyday carry.

The product supports simultaneous charging of up to three devices through multiple USB-C and USB-A outputs and includes a braided USB-C to USB-C cable for reliable connection. Built-in safeguards for short circuits, discharge, overheating, and overcharging provide safer charging, and the aluminum case with a battery level indicator makes it easy to monitor remaining power and trust the device in regular use.

Techninė specifikacija
