Aprašymas

The Green Cell EV16 electric vehicle charging station, with its sleek black finish, is designed to offer a seamless charging experience for electric vehicle owners. The unit's built-in LCD display provides clear, real-time information on various aspects of the charging process, including current charge status and power usage.

With an IP66 rating, this charging station is certified as dust-tight and protected against heavy seas or powerful jets of water, making it suitable for outdoor installations and capable of withstanding harsh weather conditions. The robust construction ensures durability and longevity, safeguarding the internal components from environmental elements.

The model number 5907813964077 identifies this specific charging station, ensuring that customers can easily reference or reorder the product. The Green Cell brand is associated with eco-friendly solutions and this charging station aligns with that ethos, offering an energy-efficient way to charge electric vehicles.

Designed for user convenience, the charging station is equipped with features that facilitate ease of use while maintaining safety and efficiency during the charging process.
