Aprašymas

The Teltonika TSW114000000 is an unmanaged network switch designed to facilitate simple and efficient network connectivity. It features five basic switching RJ-45 Ethernet ports that support Gigabit Ethernet (10/100/1000), suitable for high-bandwidth applications. The device is equipped with a MAC address table capable of holding up to 2000 entries, enhancing its ability to manage network traffic effectively. Adhering to networking standards such as IEEE 802.3, IEEE 802.3az, and IEEE 802.3u, this switch ensures compatibility with a wide range of network protocols and energy-efficient Ethernet operations. The compact design of the Teltonika TSW114000000 includes front-facing ports and an integrated DIN rail bracket, making it easy to install in various industrial settings, including control cabinets. Additionally, the switch is wall mountable, offering flexibility in deployment and optimizing space in crowded environments. Its robust construction and straightforward functionality make it a suitable choice for expanding network capabilities in both commercial and industrial applications without the need for complex configuration.

Techninė specifikacija

Matmenys ir svoris	
Matmenys (I × P × A)	9,00cm × 13,00cm × 4,00cm
Svoris	0,20kg
