Aprašymas

Increase storage capacity of your system with 2-TB Hard Drive from Dell™. It offers rotational speed of up to 7200 RPM that provides fast disk access. Moreover, its SAS interface delivers enhanced data transfer speed. This product has been tested and validated on Dell systems. It is supported by Dell Technical Support when used with a Dell system.

Hard drives are system specific for Laptops. However, you need to know the interface type for desktops and servers to choose the right product. Hence we recommend that you use the Service Tag feature in the Parts For Your Dell™ tool to choose the right hard drive for your desktop or server. For Laptops, you can either use System Drill Down or Service Tag feature.

Refurbished Spare Parts are parts retrieved from Dell-branded systems that have been returned, some of which have never been used. All Dell refurbished spare parts are certified to comply with all original Dell factory performance specifications and come with a 90-day limited hardware warranty.

Techninė specifikacija

Savybės

Kietojo disko talpa	2 TB
Kietojo disko sukimosi greitis	7200 RPM
Kietojo disko dydis	3.5"
Sąsaja	SAS
Tipas	HDD
Taikoma	Serveriui / darbo stočiai

Energijos valdymas

Darbinė įtampa 5 / 12 V

Logistikos duomenys

Darniosios sistemos (DS) kodas 84717050

Matmenys ir svoris

Svoris 0,45kg
