Lightning-Fast AX3000 Dual Band Wi-Fi

Upgrade your home or office network with the latest-generation of dual band 802.11ax access point, which offers combined speeds of up to 3000Mbps and is perfectly suited to serve multiple devices at the same time. The 5GHz band is ideal for Ultra-HD streaming video and online gaming, while the 2.4GHz band is there for all of your everyday Internet needs, like sending email and browsing the Internet.

Gigabit-Class Wired Performance

The gigabit Ethernet port makes full use of gigabit-class bandwidth provided by a local ISP to ensure reliable network connections. It also provides an ultra-fast connection for wired devices such as PCs, IPTVs, and game consoles, etc.

Boosted Wi-Fi Coverage

Four external antennas equipped with Beamforming technology concentrate Wi-Fi signals towards your devices to extend reliable Wi-Fi to every corner of your home or office—even over long distances.

Deploy Anywhere with Just One Cable

Power over Ethernet (PoE) allows your Ethernet cable to carry electrical power and data simultaneously, making deployment effortless and flexible. An elegant appearance and simple mounting design make it easy to attach the Access Point to any wall or desktop, blending in perfectly with most interior decoration.

Captive Portal Marketing

Captive Portal provides a secure guest network and offers unique marketing opportunities, especially for small businesses like cafes or salons. Utilize a flexibly designed portal page—requiring customers to view an advertisement or accept a set of terms for internet access—to improve brand awareness or deliver marketing messages.

Multi-Mode 4 in 1

Multiple operation modes are supported to give you full flexibility to tailor the Access Point to fit your network's needs.
