Aprašymas

The **WD240PURP** by **Western Digital** is a high-performance storage solution designed specifically for surveillance applications. With an impressive **HDD capacity of 24 TB**, this drive is engineered to handle the demands of continuous video recording and playback, making it an ideal choice for security systems and data-intensive environments. The **WD Purple Pro** line is known for its reliability and optimized performance in multi-drive systems, ensuring that your data remains safe and accessible at all times.

Featuring a robust **HDD speed of 7200 RPM** and a substantial **storage drive buffer size of 512 MB**, the WD240PURP delivers fast data transfer rates and quick access times. This performance is crucial for applications that require real-time data processing, such as high-definition video surveillance. The **3.5" HDD** size and **Serial ATA III interface** further enhance its compatibility with a wide range of systems, ensuring seamless integration into your existing infrastructure.

What sets the **WD240PURP** apart from its competitors is its advanced **AllFrame technology**, which significantly reduces frame loss and improves playback performance in surveillance systems. This technology allows for smooth video streaming and enhances the overall reliability of your security setup. With the **Western Digital Purple Pro** series, you can trust that your data is stored efficiently and securely, making it the preferred choice for professionals in the field.
