Aprašymas

NEEWER FL100C Flexible LED Panel

The NEEWER FL100C is an innovative, flexible LED lighting panel featuring 100W of power and a full RGB color palette. Its design allows for free-form shaping, which is essential for creative lighting on film sets or during photo shoots. The device is designed for professionals and enthusiasts seeking a versatile light source that easily adapts to diverse conditions. It provides precise control over color and intensity, allowing for exact adjustment to specific lighting needs in any situation.

The Versatility of a Flexible Design

The NEEWER FL100C stands out with its flexible LED panel, allowing you to adjust the shape of the light source to the specific needs of the scene. This feature lets you wrap the panel around objects or place it in non-standard spaces where rigid lamps won't fit. You can easily shape the light to create soft, enveloping illumination or highlight specific elements. With this solution, content creators gain a tool for creatively manipulating shadow and light in a variety of environments.

Full control over RGB color

The integrated RGB functionality in the NEEWER FL100C panel opens up a wide range of possibilities for creating mood and atmosphere in any production. You have access to millions of shades, allowing you to precisely match colors to the set design, frame style, or emotion. The ability to freely change the light color allows for quick adaptation to changing production conditions without the need for additional filters. This tool makes visual customization intuitive and effective, significantly streamlining the creative process.

Optimal 100W Power and Brightness

The NEEWER FL100C panel features 100W of power, providing sufficient light for many professional applications. This power allows for effective lighting of both smaller studios and larger film sets without the need for multiple light sources. You can rely on a stable and intense light output, which is crucial in dynamic production environments. As a result, the lighting is bright and even, translating to high-quality final images in various

conditions.

Applications in Professional Photography and Film

The NEEWER FL100C was designed with the needs of photography and video professionals in mind, who are seeking reliable solutions. Its specifications make it ideal for portrait studios, film sets, and product shoots, ensuring high-quality lighting. The ability to precisely control the light is invaluable when creating complex visual compositions and achieving desired artistic effects. This solution supports creators in projects that require flexibility, power, and the highest quality of lighting.

Mobility and Ease of Setup

The flexible design of the NEEWER FL100C panel makes it highly portable and easy to transport and set up. The panel can be folded or rolled up, making it simple to pack and move between different shooting locations without adding unnecessary weight. Quick on-site setup saves valuable time. This allows you to easily adapt the lighting to changing working conditions, regardless of the project location.

Included

- Flexible LED panel
- Softbox
- Diffuser mesh
- Power adapter
- Power cable
- Controller
- Adapter mount
- Diffuser fabric A
- Folding handle
- Carry bag
- User manual

Manufacturer	Neewer
Model	FL100C
Number of LEDs	768
Power	115 W
CRI/TLCI	96+/97+
Maximum illuminance	14,700 lx/0.5 m or 4,140 lx/1 m (6500 K) in maximum power mode
