Aprašymas

Add extra functionality to your Nintendo Switch™ with the JCD620 Mini docking Station. This mini dock allows you to project your console screen to your HDTV. Connect USB™ Type-A with accessories like a gaming controller or a keyboard. It is equipped with a high-speed Gigabit Ethernet port for network stability. The JCD620 allows the Nintendo Switch™ to connect to a HDTV, resolution up to 1080p60Hz. The JCD620 also comes with a button that allows you to toggle between the Nintendo Switch™ display and the TV display when pressed. The docking station provides all these functions while being much smaller than the standard dock for the Nintendo Switch™. It includes a USB-C® Power Delivery port that can be used to charge your console or smartphone when a USB-C® power adapter is connected. The HDMI™ port can also output 4K resolution when a 4K-capable device is connected.
