Pagrindinės savybės

- ✓ Run massive visualizations from fewer workstations with a card that can synchronize up to 4 NVIDIA Pascal™ GPUs per card or up to 16 displays per chassis.
- ✓ Show and share your projects on one unified, artifact-free video wall of up to 16 synchronized individual displays or projectors with NVIDIA Mosaic™. You can also use the technology for multi-display stereoscopic visualization clusters.
- ✓ Connect NVIDIA Quadro Sync II cards installed on separate HP Workstations and synchronize displays between them in visualization clusters, or connect a card to an external timing signal to synchronize the output of the connected GPU.
