Aprašymas

Discover the Lanberg 19" rack, designed for your networking needs. Constructed from high-grade cold rolled steel, it supports up to 1200 kg, ensuring your equipment is held securely. This rack is designed with versatility in mind, featuring adjustable depth rails and a freestanding placement option to fit a variety of devices and setups.

The Lanberg rack excels in organization and efficiency, equipped with vertical cable management panels and multiple cable entry points to maintain a neat and orderly environment. Additionally, the inclusion of a ventilation panel with 6 fans addresses the need for proper equipment cooling, promoting longevity and reliable performance. Security is also prioritized, with comprehensive locking mechanisms including front, rear, and side locks, alongside a grounding cable for added protection. Whether for a data center, IT lab, or server room, this rack is engineered to meet the demands of any secure networking infrastructure.
