Pagrindinės savybės

- ✓ Scientific Desktop Blue, White
- ✓ Built-in capability
- ✓ 16 digits
- ✓ Battery/Solar LR44

Aprašymas

F-715SG

With a large 2-line LCD display, the advanced F-715SG Scientific calculator comes in three colour variations. It's part-manufactured from recycled Canon materials, making it a sustainable choice.

- Large 2-line LCD display;
- 250 functions and features;
- Up to 16 digit internal calculation;
- More sustainable, using recycled Canon plastic materials for lower and hard case;
- Reliable dual power source: solar and battery.

Clearer readings with extra large 2-line display

Ideal for learning, examination and homework problem-solving tasks, the F-715SG Scientific calculator has an extra large 2-line LCD display. Entries appear on the top line, results on the bottom – showing up to a 10-digit answer and 2-digit exponent. Its main display character sizes measure 9.6 x 3.96mm, making it easy to accurately read results at a glance.

Extensive 250 functions and features

Smart in every aspect, this Scientific calculator has all of the essential functions students need to support their mathematical and science studies, including general math, trigonometry, statistics, physics and engineering. For advanced problem solving, the F-715SG hosts a total of 250 functions and features. It has the capacity to store to memory and recall up to 17 calculations, so users can explore different patterns and concepts. Plus, internal calculations can be performed using 16 digits, giving more exact results.

Part-manufactured using recycled Canon materials

The F-715SG is both a practical and more sustainable option. That's because Canon uses waste plastic materials to make the lower body case and hard case. Giving waste resources a second life.

Reliable dual power source

This Scientific calculator operates by both solar and replaceable battery power, offering continuous reliability and providing double assurance during exam assessments. Use the energy-saving solar power option when lighting conditions allow, switching to the back-up battery power when needed. The F-715SG also gives plenty of advanced warning to indicate when the battery power is running low. When not used or touched for 7 minutes, the 'auto power-off' function switches the calculator off, conserving battery resources further.

Techninė specifikacija

Design	
Form factor	Desktop
Type	Scientific
Product colour	Blue, White
Built-in capability	Yes
Performance	
USB port	No
Operation	250
Display	
Digits	16 digits
Display tilting	No
Display size (HxV)	25 x 61 mm
Display number of lines	2 lines
Display number of characters	10
Display character size	9.6 x 3.96 mm
Power	
Power source	Battery/Solar

Number of batteries supported	1
Battery type	LR44
Battery technology	Alkaline
Auto power off	Yes
Weight & dimensions	
Weight	124 g
Dimensions (WxDxH)	86.3 x 168 x 17.8 mm
