Aprašymas

HIGH-RESOLUTION IMAGING FOR ENHANCED SECURITY

The Hikvision 4MP 4X IR Mini Outdoor Acusense PTZ Camera delivers exceptional image quality with a resolution of 2560 × 1440 pixels. This high-definition imaging capability ensures that every detail is captured, making it easier to identify individuals and vehicles. The camera's advanced deep learning technology focuses on human and vehicle classification, enhancing security by reducing false alarms and improving monitoring efficiency. With its impressive low-light performance powered by DarkFighter technology, this camera excels in various lighting conditions, ensuring reliable surveillance around the clock.

VERSATILE ZOOM AND MOVEMENT CAPABILITIES

Equipped with a 4x optical zoom and 16x digital zoom, this PTZ camera allows for detailed close-ups of subjects across expansive areas. The focal length ranges from 2.8 to 12 mm, providing flexibility in capturing images from various distances. The camera features a wide movement range, with pan capabilities from 0° to 355° and tilt from 0° to 90°, enabling comprehensive coverage of large spaces. With configurable pan and tilt speeds, as well as 300 preset positions, users can easily monitor specific areas or track moving objects with precision.

ROBUST DESIGN FOR OUTDOOR DURABILITY

Designed for outdoor use, the Hikvision PTZ camera boasts an IP66 rating, ensuring it is both water and dust resistant. This level of protection allows the camera to function effectively in harsh weather conditions, making it ideal for various environments. Additionally, the IK10 rating indicates that the camera is vandal-proof, providing an extra layer of security against tampering or damage. With a temperature operating range of -20 °C to 60 °C (-4 °F to 140 °F), this camera is built to withstand extreme conditions, ensuring reliable performance year-round.

INTEGRATED AUDIO FEATURES FOR REAL-TIME COMMUNICATION

This camera is equipped with a built-in microphone and speaker, allowing for real-time audio communication. The microphone can pick up sounds within a radius of up to 5 meters, while the speaker has an effective range of 10 meters, enabling clear audio interactions. This feature enhances security by allowing users to communicate with individuals in the camera's vicinity, providing an additional layer of monitoring and response.

capability. The audio capabilities are complemented by advanced noise filtering technology, ensuring clear sound quality even in noisy environments.

ADVANCED SMART FEATURES FOR ENHANCED MONITORING

The Hikvision 4MP PTZ camera incorporates a range of smart features designed to improve surveillance efficiency. With motion detection, video tampering alarms, and various smart event triggers such as line crossing and intrusion detection, this camera can automatically alert users to potential security breaches. The ability to upload footage to FTP, NAS, or memory cards, alongside notifications to surveillance centers, ensures that critical events are documented and addressed promptly. Additionally, the camera supports multiple user levels and secure access protocols, enhancing overall system security.
