Aprašymas

TOP-OF-THE-LINE PERFORMANCE FOR HIGH-VOLUME, RUGGED ENVIRONMENTS

To achieve maximum visibility and efficiency in your most rugged environments, your operation needs an RFID reader that can keep up with the high volume and wide variety of pallets, cases and tagged items that go in, out and through your warehouse and dock doors each day.

Now, get the performance and features you need to handle it all with the FX9600 — without breaking the bank. With industry-leading read rates, exceptional read accuracy and superior RF sensitivity, the FX9600 has what it takes to automate nearly every aspect of your inventory management — from receiving and putaway to picking and shipping — without errors or bottlenecks. The FX9600 is the industry-best performance your operation needs at a price you can afford.

TOP-OF-THE-LINE PERFORMANCE

When it comes to performance, the FX9600 delivers the best. The exceptionally high RF sensitivity delivers the greatest accuracy and longer read ranges, even in dense RF environments with challenging materials. And with the most power in its class, you can support the highest throughput, as well as all of your sophisticated software applications.

UNRIVALLED DEPLOYMENT SIMPLICITY

Host embedded applications directly on the FX9600, reducing deployment time, cost and complexity. With support for PoE and PoE+, there’s no need to run power drops to each reader — and with PoE+ or a 24V power supply, even long cable runs won’t reduce available RF power.

THE INDUSTRY'S BEST TCO

Designed for tough environments, the rugged FX9600 can handle it all — damp dusty work areas, extreme heat and subzero temperatures. And with the eight-port model, you can cover more dock doors and portals with fewer readers, significantly lowering your investment, deployment and management costs.

Techninė specifikacija

Technical details	
Interface	RJ-45
Product colour	Black
Operating frequency	902 - 928 MHz
Logistics data	
Harmonized System (HS) code	84719000
Weight & dimensions	
Width	50 mm
Depth	273 mm
Height	184 mm
Weight	2.13 kg
Operational conditions	
Operating temperature (T-T)	-20 - 55 °C
Operating relative humidity (H-H)	-40 - 70%
Storage temperature (T-T)	5 - 95 °C
