- ✓ QWERTY US English
- ✓ 65%
- ✓ Windows keys
- ✓ Backlight RGB LED RGB
- ✓ Black, White
- ✓ 1 pc(s)

Aprašymas

The keyboard is equipped with advanced HATOR Aurum Ice magnetic switches that deliver exceptionally fast and precise actuation while offering extensive options for fine-tuning. Its functionality is complemented by ultra-high performance with a polling rate of up to 8000 Hz in both wireless and wired modes, as well as outstanding noise and vibration isolation — making every keystroke a smooth and enjoyable experience.

HATOR Aurum Ice Magnetic Switches

Adjustable Actuation Distance

Individual adjustment of each key's actuation point for ultimate precision and personal gaming comfort.

Dynamic Key Stroke (DKS)

Up to four different actions on a single key — depending on the depth of press or release.

Press and Click (MT)

One key — two functions: a short tap triggers one action, while holding it activates another.

Toggle Switch (TGL)

Automatic press modes: continuous hold or cyclic repetition without additional input.

Snap Key

Smart dual-key logic — the system registers the last pressed key for faster reaction time.

Rapid Trigger: 0.01mm

Instant key reactivation with only 0.01 mm of movement.

Choose for yourself.

Three available form factors — 65% and 80% — let you pick exactly the keyboard size that fits your needs and style of use.

Gasket Mount Architecture

The construction with elastic gaskets between the plate and the case evenly distributes pressure during keystrokes. This reduces vibrations and makes typing sound softer and more pleasant. As a result, the keyboard delivers exceptional comfort and full immersion during work or gaming.

TFT screen

Check key functions, display useful information, or show your favorite animation on the screen.

Lubricated Stabilizers

Hand-finished POM stabilizers ensure smoothness, stability and a harmonious sound on large keys.

Next-Level Sound Insulation

A multilayer sound and vibration isolation system reduces unwanted noise and delivers a comfortable typing experience.

Hot-Swap Switches

Quick and easy switch replacement without soldering – customize the keyboard to your personal preference.

Tri-Mode Connectivity

Choose between wired, Bluetooth or 2.4 GHz wireless connection for optimal use with any device.

Maximum speed at your fingertips

8000Hz polling rate in both wired and 2.4 GHz wireless modes, combined with a 64 000 Hz key scan rate.

No hardware limits — now everything depends solely on your reaction.

Double-Shot PBT Keycaps

Ergonomically sculpted keycaps with shine-through legends provide satisfying tactile feedback and long-lasting durability.

Multimedia control knob

Volume and mute settings are always at your fingertips — or assign any other function you like via the software.

Fully Customizable RGB Lighting

Adjust the lighting of every key with a palette of 16.8 million colors.

The side panels with 19 RGB zones can be synchronized with the main lighting or customized separately via software.

Full N-Key Rollover

No keystroke will be missed – absolute control during fast-paced gameplay.

Customization Software

Take advantage of extensive options to tailor the keyboard to your needs using the dedicated software.

Techninė specifikacija

Keyboard	
Recommended usage	Gaming
Connectivity technology	Wired & Wireless
Device interface	USB + RF Wireless + Bluetooth
Keyboard key switch	Magnetic-mechanical key switch
Keyboard layout	QWERTY
Keyboard language	US English

Pointing device	No
Keyboard form factor	65%
Numeric keypad	No
Keyboard key switch technology	HATOR Aurum Ice Magnetic
Physical layout	ANSI
Keycaps	Double shot
Keycaps material	Polybutylene terephthalate (PBT)
Keyboard keys operating life	100 million characters
Windows keys	Yes
Multimedia keys	Yes
Key travel distance	3.5 mm
Actuation force	45 g
Rollover	N-key rollover
Frequency band	2.4 GHz
Polling rate	8000 Hz
Design	
Backlight	Yes
Product colour	Black, White
Backlight type	RGB LED
Backlight colour	RGB
Adjustable backlight	Yes
