Aprašymas

19" monitor with Surface Acoustic Wave touch technology

The ProLite T1931SAW-B5 uses highly accurate Surface Acoustic Wave Touch Technology (SAW) with a pure-glass scratch resistive front, offering superior image clarity and screen durability. The screen can be touched with a soft stylus, finger or gloved hand making it suitable for a number of applications, and the solid but flexible stand ensures resilience in the most demanding environments. Menu buttons are located on the side of the screen which can be locked to prevent tampering, and include a handy function to deactivate the touchscreen for cleaning. The iiyama ProLite T1931SAW-B5 touchscreen is ideal for a wide range of applications including Point of Sale, Kiosks, Hospitality and Entertainment, Control rooms, Education, Training and many others.

Touch technology - Surface Acoustic Wave

Surface acoustic wave uses ultrasonic waves that pass over the panel. When the panel is touched, a portion of the wave is absorbed and a touch event is registered. Because the screen is covered with a glass layer this technology offers great picture performance (high contrast and colour accuracy). It is also scratch-resistant technology and therefore ideal for use in Public Places or Schools. Even if the screen is scratched, the touch function remains unaffected. Surface Acoustic Touch screens are activated with finger or a soft stylus touch.

Scratch resistance

Scratch resistance is essential for touch solutions used in public places and schools. This is achieved thanks to a glass overlay covering the screen. It guarantees high durability of the touch function and even more importantly the touch function remains unaffected even if the glass is scratched.

ip54

The IP Code classifies how resistant a device is to foreign objects and moisture. IP54 means that the monitor will operate in dusty conditions, and will resist splashing water.

Speakers

This LED monitor is equipped with two high quality stereo speakers.

VESA

VESA mount compliance means you can easily mount the LFD to any mounting that complies with the VESA standard.

Techninė specifikacija

Display	
Display diagonal	48.3 cm (19")
Display resolution	1280 x 1024 pixels
Touchscreen	Yes
Display brightness	230 cd/m ²
Pixel pitch	0.294 x 0.294 mm
Contrast ratio (typical)	1000:1
Response time	5 ms
Viewing angle, horizontal	170°
Viewing angle, vertical	160°
Native aspect ratio	5:4
Features	
Product colour	Black
