Aprašymas

ProLite XUB2390HS is a 23" LED monitor equipped with IPS panel technology, offering accurate and consistent colour reproduction with wide viewing angles and a fast response time. The XUB2390HS has a truly ergonomic stand including a 150mm height-adjustment, featuring pivot and swivel functions whilst guaranteeing superb performance for photographic design, web design and standard office use. It's the perfect choice for multi-monitor applications.

IPS

IPS displays are best known for wide viewing angles and natural, highly accurate colours. They are especially suited for colour-critical applications.

HAS (150MM) + PIVOT (ROTATION BOTH SIDES)

With a height adjustable stand you will create an ergonomic work posture and position that meets all health and safety requirements. This will not only prevent any health issues but will also increase your productivity. The pivot function allows the screen to rotate from landscape to portrait orientation. This functionality can be useful if the application requires more height than width.

OVERDRIVE ON / OFF

When very fast graphics are displayed your monitor can sometimes get blurry. Turning on the OverDrive feature will eliminate that.

ACR

Contrast Ratio is a measurement of the difference between the darkest black and the brightest white your monitor can display. Advanced Contrast Ratio is a feature that automatically adjusts contrast and brightness of the screen to assure perfect picture quality while watching films and playing games.

SPEAKERS AND HEADPHONES

Playing with friends? Use the integrated high-quality speakers. Don't want to disturb anybody? Plug your headset in the headphone connector and enjoy!
