IMOU All-day Storage Saving Recording Mode

In AOR mode, the camera records full-frame video only when an event is detected, and 1 second/frame at all other times. This meets the need for all-day video recording and saves storage space significantly, allowing more video to be stored on a smaller memory card.

Save More Space without Sacrificing Quality

H.265 compression reduces bandwidth and storage requirements while maintaining high-quality footage. Up to 32-day continuous recording on a 512GB Micro SD card - worry less, capture more.
