Aprašymas

EXPERT Wood 2-side clean for Highest Precision Tear-Free Cutting Wood

Ensuring the 'clean side' of a jigsaw cut is on the visible part of the work material has always been an art among joiners and woodworkers. Sometimes you can turn the workpiece over, other times the jigsaw itself can be held upside down. Or you could use the EXPERT 'Wood 2-side clean', that offers a perfect tear-free cut on both sides thanks to its double rows of teeth.

With its extra sharp precision-ground teeth, the Bosch EXPERT 'Wood 2-side clean' Jigsaw Blade is well suited to cutting softwoods up to 50mm thick. Cabinet makers can get a perfect finish and not lose time sanding after every jigsaw cut. Available for straight cuts (T308B), for curve cuts (T308BO) and for accurate angle cuts (T308BP).
