Aprašymas

The S 1122 VF Flexible for Wood and Metal Sabre Saw Blade delivers effortless flush cuts in wood and metal. Its vario-tooth geometry enables smooth and vibration-reduced cutting. Moreover, the blade's standard gauge material (0.9 mm) and length provide an excellent flush-cutting capability. The BIM (bi-metal) blade is optimised to cut soft nails, mild steel materials and non-ferrous metal components embedded in wood. It is equipped with a standard length (225 mm) for a cutting capacity up to 175 mm. For use with sabre saws with 1/2 inch universal shank systems.
