Pagrindinės savybės

- ✓ Apply on a variety of substrate or material combinations
- ✓ Use as a part of the ATG system
- ✓ Get high adhesion, good solvent resistance, and excellent ultraviolet (UV) resistance

Aprašymas

Apply Scotch® ATG Adhesive Transfer Tape 924 for various substrate or material combinations. Our transfer film tape is an acrylic, reverse wound, pressure sensitive adhesive on a densified kraft paper liner, for use with Scotch® ATG Adhesive Applicators.

Use Scotch® ATG Adhesive Transfer Tape 924 with Scotch® ATG Adhesive Applicators. Our transfer film tape is an acrylic, reverse wound, pressure sensitive adhesive on a densified kraft paper liner for applying on a variety of substrate or material combinations. It's a great general purpose adhesive tape, offering high adhesion, good solvent resistance, and excellent ultraviolet (UV) resistance. It bonds on contact when delivered through the ATG system. A controlled application of the adhesive is delivered while the liner rewinds into the ATG applicator. The ATG tape system is a cost effective replacement to rivets, staples, screws, bolts, liquid adhesives and is safer than hot melt adhesives. It's versatile, convenient, quick and easy to use.

Techninė specifikacija

Features

Ultraviolet (UV) resistant Yes

Easy to use Yes
