Aprašymas

EXPERT Hardwood Fast for Long Life Cutting Hardwood and Abrasive Woodworking Materials

Jobs such as cutting modern decking material for a patio or balcony are heavy duty, but they still need the neat, accurate cut you get from a jigsaw. Unfortunately, tough or abrasive materials like wood-plastic composites tended to destroy jigsaw blades – but not any more: the EXPERT 'Hardwood Fast' has carbide teeth for a vastly superior lifespan.

Also at home cutting MDF, Chipboard, WPC, Plasterboard and Fibreboard, the Bosch EXPERT 'Hardwood Fast' Jigsaw Blade offers a fast, quality cut for far longer than conventional jigsaw blades. It's the best choice for professionals.
