Pagrindinės savybės

- ✓ Roll
- ✓ Proper use: Sanding
- ✓ Sanding surfaces: Stone, Paint
- ✓ Brand compatibility: Bosch
- ✓ Grit: 320
- ✓ Black
- ✓ 1 pc(s)

Aprašymas

The C355 Best for Coatings and Composites produces an excellent finish on coating and composite surfaces. It features an anti-static structure promoting low dust adhesion on the workpiece for smooth finishes. Furthermore, a controlled silicon carbide abrasive grain distribution removes material with precision for sleek finishes with high surface quality. It is intended for keying and sanding down such hard materials as stone, mineral-based materials, composites, varnishes and paint. It is also ideal for sanding between coats of varnishes on surfaces and roundings as well as precision work on ferrous and non-ferrous materials. The C355 Best for Coatings and Composites sanding role is tearable to any desired size and is usable for hand-sanding blocks. It features an electrostatically closed grain distribution and fully synthetic resin bonding on C-paper for optimal sanding behaviour.

Techninė specifikacija

Technical details

Product type	Roll
Proper use	Sanding
Sanding surfaces	Stone, Paint
Brand compatibility	Bosch

Grit	320
Roll width	9.3 cm
Roll length	5 m
Product colour	Black
Packaging data	
Quantity per pack	1 pc(s)
Matmenys ir svoris	
Svoris	0,10kg
