Pagrindinės savybės

- ✓ Compatible with RJ11, RJ12, RJ45 and crimp connectors with metal strain relief
- ✓ Automatic spring force adjustment for consistent results
- ✓ Cutting, stripping and crimping in one tool
- ✓ Rugged design for professional use

Aprašymas

The InLine® Modular crimping tool is a versatile professional tool for structured network cabling. It enables precise crimping of common connector types such as RJ11, RJ12 and RJ45. Thanks to the automatic adjustment of the spring force during stripping, the pliers deliver consistent results, regardless of the cable type used.

The multifunctional crimping pliers combine three work steps in one device: stripping, cutting and crimping. This makes it particularly time-saving and efficient - ideal for IT specialists, system houses or installation companies that regularly assemble network cables.

With compatibility with connector types such as 8P8C, 6P6C, 6P4C and 6P2C and for processing cables with a diameter between 4 and 8.5 mm, the crimping pliers cover a wide range of applications. Even crimp connectors with metal strain relief can be processed without any problems. The high-quality workmanship makes them a reliable partner for everyday use.

Techninė specifikacija

Technical details

Product colour	Black, Green
Package length	23.4 cm
Country of origin	Taiwan
Other features	
Dimensions (WxDxH)	63 x 210 x 21 mm
Weight & dimensions	
Weight	386 g
Width	63 mm
Depth	210 mm
Height	21 mm
Packaging data	
Package width	18 mm
Package depth	234 mm
Package height	22 mm
Package weight	411 g
Package volume	600 cm ³
Matmenys ir svoris	
Svoris	0,41kg
