Aprašymas

8-piece pliers set for precision: Ideal for electronics, precision mechanics and repair work.

Various types of pliers in the set: Side cutters, needle nose pliers, flat nose pliers, snipe nose pliers and more.

Compact and portable: Perfect tool for technical and field service applications.

Sturdy design: Robust workmanship for durable and reliable use in a professional environment.

Ergonomic handling: Handles enable safe working even with delicate tasks.

The InLine® electronics pliers set contains eight high-quality precision pliers for fine mechanical work. The range includes all important types of pliers for working with electronic components, cables, small metal parts or fine components.

The set includes side cutters, needle nose pliers, needle nose pliers, combination pliers and special shapes such as snipe nose pliers, curved pliers and flat nose pliers. This makes the set ideal for use in workshops, production or repair services.

The sturdy workmanship ensures durability even with regular use. Thanks to its compact dimensions and low weight, the set is also ideal for mobile use in the field or for training purposes. Ergonomic handles provide optimum grip and facilitate precise work.

A practical basic tool set for specialists, technicians and electronics professionals that should be part of every tool kit.
