Pagrindinės savybės

- ✓ Efficient working with both hands free
- ✓ Two adjustable crocodile clips hold workpieces securely in place and enable precise working without additional aids.Exact view of delicate details
- ✓ The integrated 65 mm magnifying glass with 2.5x magnification supports precise working in electronics, model making and precision engineering applications.Stability for demanding tasks
- ✓ The robust 50 × 50 mm base provides a firm hold, even when working with sensitive components.Flexibility for a wide range of applications
- ✓ The adjustable holding arms can be positioned individually – ideal for workshops, laboratories and repair services.Compact, transport-friendly design
- ✓ The lightweight construction makes it easy to take with you for mobile use or for space-saving use at the workplace.

Aprašymas

Efficient working with both hands free:Two adjustable crocodile clips hold workpieces securely in place and enable precise working without additional aids.

Exact view of delicate details:The integrated 65 mm magnifying glass with 2.5x magnification supports precise working in electronics, model making and precision engineering applications.

Stability for demanding tasks:The robust 50 × 50 mm base provides a firm hold, even when working with sensitive components.

Flexibility for a wide range of applications:The adjustable holding arms can be positioned individually – ideal for workshops, laboratories and repair services.

Compact, transport-friendly design: The lightweight construction makes it easy to take with you for mobile use or for space-saving use at the workplace.

The InLine® Third Hand with magnifying glass and crocodile clips is the ideal tool for professional users who require maximum precision and control when working on delicate tasks. Equipped with two flexibly adjustable crocodile clips, this tool reliably secures a wide variety of workpieces – from sensitive circuit boards to delicate jewellery elements.

The integrated magnifying glass with a diameter of 65 mm and 2.5x magnification ensures a clear view of even the smallest details. This is particularly useful for electronics repairs, visual inspections or precision soldering work where every millimetre counts. The solid base with dimensions of 50 × 50 mm guarantees a stable and wobble-free working platform – even for demanding applications.

Thanks to its compact design, the third hand is not only suitable for workbenches, but also for mobile use and in training workshops or technical service. The device is intuitive to use and offers a wide range of applications – from cable assembly and jewellery repair to prototyping work.

Magnifying glass: Ø 65 mm, 2.5x magnification

Retaining clips: 2 pieces, flexibly adjustable

Base: 50 × 50 mm, heavy base for stability

Material: metal/plastic combination

Dimensions (WxHxL): 8 × 9 × 12.5 cm

Weight: 293 g

Application: suitable for electronics, model making, precision mechanics, repairs

Techninė specifikacija

Technical details	
Product colour	Black, Chrome
Country of origin	Taiwan
Other features	
Dimensions (WxDxH)	80 x 125 x 90 mm
Weight & dimensions	
Weight	293 g
Width	80 mm
Depth	125 mm
Height	90 mm
Packaging data	
Quantity per pack	1 pc(s)
Package width	80 mm
Package depth	125 mm
Package height	70 mm
Package weight	328 g
Package volume	700 cm ³
Matmenys ir svoris	
Svoris	0,33kg
