## Pagrindinės savybės

- ✓ Perfect tools for tight spaces as the toothless ratchet only requires a backswing angle of less than 1 degree
- ✓ Every spanner combines an open-ended with a ratchet ring spanner in a single tool
- ✓ Manufactured from chrome vanadium steel with a hardened bi-hexagonal ring for extra strength and high durability

## Aprašymas

The versatile 5-piece set includes ratchet spanners in the standard sizes 8mm, 10mm, 13mm, 17mm and 19mm. All spanners can be used for a wide variety of applications as every spanner combines an open-ended with a ratchet ring spanner in one single product. The spanners are perfectly suited for work in tight spaces as the toothless ratchet only requires a backswing angle of less than 1 degree. Our spanners are manufactured from high-quality chrome vanadium steel with a hardened bi-hexagonal ring and are very robust and long lasting. The ratchet spanners are designed for precision applications for light and medium torque applications. For high torque applications, the open end wrench should be used. This versatile 5-pieces set comes in a handy folding canvas bag.

## Techninė specifikacija

| Features                |                         |
