Pagrindinės savybės

- ✓ CE approved to protect against a wide range of gases and vapours depending on the model selected
- ✓ Bayonet-style connection fits a wide range of compatible half and full-face 3M™ Reusable Masks
- ✓ Use with CE approved 3M™ Reusable Half Masks 6000 Series, 6500QL Series, 7500 Series and 3M™ Reusable Full Face Masks 6000 Series
- ✓ Swept-back, low profile design for optimised field of view and balance
- ✓ Lightweight with low breathing resistance
- ✓ Quarter turn for a quick and easy installation
- ✓ Wide range of applications may reduce inventory needs
- ✓ Use for protection in hazardous environments . For workplace/occupational use only

Aprašymas

3M™ Bayonet Gas & Vapour Filters have a bayonet-style connection that fits any half or full facepiece 3M™ Bayonet Reusable Respirators and they're designed to optimise your field of vision. These filters offer lightweight and well-balanced breathing protection for a wide range of hazardous environments.

For ABE1 breathing protection against organic vapours (boiling point above 65 °C), inorganic vapours and acid gases, use 3M™ Gas and Vapour Filters, 6057. Our filters have a brown, grey and yellow band that's colour-coded according to the EN14387 classification system to show the type of

protection they provide.

These lightweight filters combine protection with comfort, and they're compatible with our range of reusable half and full-facepiece for safe working in hazardous environments. They offer low breathing resistance and good balance when connected to your facepiece, and they're designed to optimise your field of vision.

They can be clicked into place quickly and easily, and they can be used with any 3M™ Reusable Facepiece that feature a bayonet-style connection. They can also be used in combination with 3M™ Particulate Filters 5925/5935 and 3M™ Filter Retainer 501.

Techninė specifikacija

Features	
Product type	Gas & vapor cartridge
