Aprašymas

High data transfer rate: Achieve speeds of up to 5 Gb/s - ideal for demanding applications and fast file transfers.

Simultaneous operation: The enclosed 2.5 A power supply unit enables the simultaneous operation of several devices without any loss of performance.

Robust aluminium design: The elegant, black aluminium housing combines sophisticated design with outstanding stability.

Comprehensive compatibility: Thanks to backwards compatibility (USB 3.1, 3.0, 2.0, 1.1), you have flexible access to a wide range of systems.

Benefit from an active USB hub that has been specially developed for professional applications. With the InLine® USB 3.2 Gen.1 hub, you get a solution that meets the highest demands - whether in the data centre or in the office. The ultra-fast data transfer of up to 5 Gb/s and the reliable power supply via the high-performance power supply unit enable trouble-free operation, even if several devices are connected at the same time. The high-quality aluminium housing in elegant black is not only visually appealing, but also offers increased stability and durability. The simple operation via an ON/OFF button and the LED status indicators mean you always have an overview of the connection status.
