Pagrindinės savybės

- ✓ Connects a KVM switch to the DisplayPort video and USB ports of a target computer*
- ✓ Supports Audio De-Embedder
- ✓ Auto Signal Compensation (ASC), no DIP switch setting needed for different distances
- ✓ Keyboard and mouse emulation – keeps your server functioning smoothly when it's disconnected from the switch's KVM port or is relocated to a different KVM port
- ✓ Virtual Media Support**
- ✓ Smart Card / CAC Reader Support**
- ✓ Superior video quality - supports resolution up to 1920 x 1200 (Reduced blanking)***
- ✓ Built in ASIC for greater reliability and compatibility
- ✓ Compact size
- ✓ Firmware upgradeable

Aprašymas

The KA7189 KVM Adapter Cable connects a KVM switch to the DisplayPort video and USB ports of a target computer.* The KA7189 supports DisplayPort output and provides two USB plugs to connect a target computer for keyboard/mouse, Virtual Media, or Smart Card/CAC Reader functions.**

The KA7189 supports Audio De-Embedder, which extracts the audio from a DisplayPort signal. More advanced features of KA7189 include the small size and lightweight design, as well as superior signal compensation and delay skew technologies for greatly enhanced video quality.

*Both USB connectors must be plugged into USB ports on the target computer for the KA7189 to receive sufficient power.

**Please refer to the webpage of KVM Adapter Cable Compatibility List (www.aten.com/global/en/products/kvmtool/kacablecompatibility/) for information about compatible KVM Switches.

Techninė specifikacija

Performance

Keyboard port type	USB
Mouse port type	USB
