Aprašymas

The Lindy HDMI to VGA converter converts signals from a HDMI equipped source into a VGA signal. It supports resolutions up to 1920x1200@60Hz for VGA displays. This allows the connection of HDMI capable devices, such as PC's, notebooks and ultrabooks, to an older VGA display or projector.

The converter can also be used to add another display to extend the available desktop workspace. It is also ideally suited for travelling due to its compact, lightweight form factor and convenient plug and play installation.
