systems, CCTV and IP surveillance.
Product construction is made of high grade cold rolled steel which is characterized by an excellent design and high quality of craftsmanship. Having additional section, you can easily lead cabling from the rear, perform maintenance of equipment fitted inside or upgrade its functionality by installing new devices. Additionally, cabinet is equipped with a front tempered glass door with lock and possibility of installing those doors on right or left-hand side.
The equipment also allows installation of the rear section (supplied with the lock) on both sides of the cabinet. This server product has removable side panels (including locks). You can put the wiring through entry cable panels, located on top and bottom (with blank entry panels).
Cabinet is designed for self-assembly, packaged in a form of convenient flat pack. Lastly packaging includes additional accessories for rails mounts, M6 cage nuts and blank entry panels.

Techninė specifikacija
