Aprašymas

Lockable C13 plug for maximum operational safety: Prevents accidental disconnection – ideal for use in vibrating environments or in racks.
US plug NEMA 5-15P with UL/CSA certification: Complies with relevant North American safety standards for export.
Robust SVT cable with 18AWG: Flexible and durable – ideal for professional applications in the US and Canada.
Professional connection for IT and AV applications: Reliable power supply for servers, UPS systems, and AV equipment.
Ideal for industrial and mobile installations: Provides a secure hold even when moving or in demanding environments.

The InLine® power cable with 3-pin NEMA 5-15P power plug and lockable IEC-C13 IEC plug is specially designed for use in the North American market. The mechanical lock on the C13 plug ensures a particularly secure connection and prevents accidental disconnection – ideal for IT installations, industrial environments, or mobile applications.
The SVT type cable with a cross-section of 18AWG is flexible and robust at the same time, making it ideal for professional continuous use. The cable is UL and CSA certified and therefore meets the relevant safety standards for export to the USA and Canada.
Whether in data centers, 19" racks, audio/video technology or mobile scenarios, this power cable provides a reliable connection with a high level of

mechanical safety. Available in various lengths, it can be flexibly integrated into different setups.
