Aprašymas

CHIEFTRONIC's NOVA A-RGB fan set comes with beautiful illumination from a dual-ring design to ensure smooth and full lighting with 16 LEDs on the inner ring as well as 16 more LEDs on the outer ring. Additional frame design elements on the outer ring give the Nova fans a distinct visual that impresses.

The Nova set comes with three fans, a control hub and a remote control, which allows the RGB effects to be controlled via the pre-programmed lighting effects on the control hub or via M/B sync technologies like ASUS™ AURA SYNC, MSI™ MYSTIC LIGHT SYNC, ASROCK™ POLYCHROME SYNC, GIGABYTE™ RGB FUSION.

Fan speeds can be controlled either via the control hub or via M/B PWM fan ports to ensure the optimal balance between cooling performance and silent operations.
