## Aprašymas

### Connect an HDMI®-capable display to a Mini-DisplayPort®-equipped PC or Mac® computer

The MDP2HDW passive Mini DisplayPort® to HDMI® Video Adapter/Converter (White) offers a convenient HDMI/Mini-DisplayPort link, which enables you to connect an HDMI computer monitor or television to a device with a Mini-DisplayPort output (such as any Microsoft® Surface™ Pro with mDP), while saving the expense of upgrading the monitor for compatibility.

The adapter supports high resolution output up to 1920x1200, offering a high quality solution for mirroring or extending a computer desktop onto a second display.

This versatile Mini DisplayPort to HDMI adapter requires a multimode DisplayPort port (DisplayPort ++ ) connection to function, and is compatible with Intel® Thunderbolt™ output when connected directly to a supporting DisplayPort over Thunderbolt™ I/O port.

This adapter allows for audio pass-through if supported by the video source. Please review the video source manual to confirm support.

Backed by a StarTech.com 3-year warranty and free lifetime technical support.
